Choice Seed Potatoes

...FROM...

ANDERSON & CO.,

Seed and Plant Merchants. SYDNEY.

THE variety of Seed Potatoes we are offering this Season is for many reasons limited in number, but the stocks are as usual, fine clean seed, specially picked and selected, both by the grower, before delivery, and in our Potato Store, before sending on to customers. Our stocks have in past Seasons given the greatest satisfaction, and we doubt not those now offered will be equally good—the tubers being in good condition, dry and clean.

It is absolutely requisite, to secure the best stocks, to order early, and those who intend planting should note this—and also, that we shall substitute with other good varieties, when those ordered are sold out.

Anderson & Co.

POTATO GROWERS. Spray your Crops when they are in growth, and ensure them against Irish Blight. Use Bordeaux Mixture, and the specially made Sprayers. — SEE BACK HEREOF.	NOTE. —All our Potatoes will this Season be put on board steamer, or on rail, <u>entirely at the Purchaser's risk.</u> We will not be held responsible for any decay in the Tubers, but will undertake to see they are all sound, and in good order when forwarded.	SEED POTATOES ARE DELIVERED FREE in all the Suburbs, and on RAIL or STEAMER, Sydney.
--	--	---

ANDERSON'S IMPROVED EARLY ROSE.—This variety is everyone's favorite being early, a good cropper, and is always asked for, the flavor is good, and a potato it is always safe to grow.

PRICE, per cwt.	...	14/-	} Special Price per ton.
" " 28 lbs.	...	4/-	
" " 14 lbs.	...	2/6	

BROWNELL'S BEAUTY.—This good main crop potato is too well known to need description; it gives fine results wherever cultivated, and is one of the very best table potatoes grown. Our stock this year is very fine.

PRICE, per cwt.	...	11/-	} Special Price per ton.
" " 28 lbs.	...	3/-	
" " 14 lbs.	...	2/-	

ANDERSON'S SATISFACTION.—This fine potato was well named by us when we sent it out for the first time some years ago; it never grows too large or ugly; it is a fine mealy potato for the table; skin rich brown, varies somewhat in different soil, and at times with quite a lot of color. One of the very best varieties.

PRICE, per cwt.	...	11/-	} Special Price per ton.
" " 28 lbs.	...	3/-	
" " 14 lbs.	...	2/-	

SNOWFLAKE.—A pure white potato, very good for table, boils dry, and is always in demand, moreover it is a good cropper, and keeps well.

PRICE, per cwt.	...	12/-
" " 28 lbs.	...	3/6
" " 14 lbs.	...	2/-

QUEEN OF THE VALLEY.—This is a variety we have not had for some time, but we have secured a few tons this season in prime condition. A red skin, heavy cropper, and has done well in the Northern district.

PRICE, per cwt.	...	12/-
" " 28 lbs.	...	3/6
" " 14 lbs.	...	2/-

ANDERSON'S ROYALTY.—This is one of the kidney shaped potatoes, but an enormous cropper and a splendid table variety. We named and sent it out a few years ago. Stock this season very limited.

PRICE, per cwt.	...	12/6
" " 28 lbs.	...	3/6
" " 14 lbs.	...	2/-

MANHATTAN.—The supply of this fine main crop potato is very limited, and we can only offer subject to sales. It has a pretty mottled skin; a good show tuber, yields well, very hardy, and a good keeper.

PRICE, per cwt.	...	14/-
" " 28 lbs.	...	3/6
" " 14 lbs.	...	2/-

BRESEE'S PEERLESS.—A white skinned potato, sometimes growing on rich ground to a very large size; it is however a most excellent table potato, keeps and cooks well.

PRICE, per cwt.	...	11/-
" " 28 lbs.	...	3/-
" " 14 lbs.	...	2/-

SEED POTATOES—Continued.

ANDERSON'S SOUTHERN STAR.—One of the best potatoes grown, a heavy cropper, and fine flavored variety, it has a fine pale pink skin and dark eye, named and sent out by us. Stock limited.

PRICE, per cwt.	...	14/-
" " 28 lbs.	...	4/-
" " 14 lbs.	...	2/6

ANDERSON'S "COUNTRY BOY."—A main crop variety of most excellent quality, has a fine robust appearance and red skin, does not want too rich land, a fine table potato, and one of the leading sorts. Stock limited.

PRICE, per cwt.	...	14/-
" " 28 lbs.	...	4/-
" " 14 lbs.	...	2/6

MAGNUM BONUM.—This is a fine brown skinned potato, oval in shape, of good quality, and a grand table variety, it produces good crops which keep well, a fine reliable potato.

PRICE, per cwt.	...	12/6
" " 28 lbs.	...	3/6
" " 14 lbs.	...	2/-

CAMBRIDGE KIDNEY.—The quality of this fine kidney is excellent, it yields well and is always in demand. The supply of kidney potatoes will be short this season, growers seem to prefer cultivating the round red-skinned potatoes. Our stock is limited.

PRICE, per cwt.	...	14/-
" " 28 lbs.	...	4/-
" " 14 lbs.	...	2/6

POTATO GROWERS!—Spray your Crops and prevent Irish Blight.

IRISH BLIGHT is a Fungoid Disease. The plant is attacked, and the spores may be blown considerable distances. The only safety is in the persistent spraying of the plants, and the best Mixtures are BORDEAUX MIXTURE and "VERMORITE"; and the best Sprayers, the "AUTO" and the "ECLAIR," listed by us.

"AUSTRAL" AUTO-SPRAY—In Use.

Bordeaux Mixture.

Bordeaux Mixture is the recognised remedy for all fungus pests, and has been proved most effective. We have imported a large supply all ready prepared, and can be mixed with water straight away, saving much time and trouble.

1 lb., 7d.	10 lb., 5/-	28 lb., 12/6.
56 lb., 22/6.	1 cwt., 45/-	

Each pound weight of this Bordeaux Powder will make 5 galls. wash.

"Vermorite."

This is a French Preparation made up in a similar manner to the Bordeaux Powder, and is recommended for spraying for Irish Blight on Potatoes and all other Fungoid Diseases, such as Curly Leaf, Black Spot, &c., &c., that affect trees or shrubs.

PRICE OF "VERMORITE":
Original packets of 4½ lbs., 3/6; 1 lb., 1/-
Each pound weight of "Vermorite" will make 5 galls. wash.

The Austral Auto-Spray

REGISTERED.

(ANDERSON & CO., Sole Distributing Agents).

This Spraying Machine is entirely automatic in its action. It presents a number of important advantages which make it absolutely the most up-to-date.

IT IS SIMPLICITY ITSELF—no pump to give trouble, no intricate parts which require skill in handling; it cannot get out of repair. The Mixture we supply produces its own gas under pressure, so there is a great economy of material. At the same time the Spray is very fine and adhesive. The machine is ready for use at a moment's notice, and there is no pump to prepare for working. It can be carried very comfortably on the shoulders, the arrangement for this purpose being so perfect that a woman can use the spray without becoming tired.

PRICES OF MACHINES.—No. 1, 1½ gallons of mixture, £2 10s. weight when full, 25 lbs. No. 3, 2½ gallons of mixture, £3 12s. 6d. weight when full, 47 lbs.

PRICES OF POWDERS.—With Copper Sulphate (1%), for No. 1 machine 4/- per doz., 8/- for 25, 30/- per 100; for No. 3 machine, 7/6 per doz., 15/- for 25, 50/- per 100. Without Copper Sulphate (simple), for No. 1 machine, 3/6 per doz., 7/- for 25, 25/- per 100; for No. 3 machine, 6/6 per doz., 13/- for 25, 45/- per 100.

Special Leaflet, with fullest details on application.

The "Eclair" Spray Pump.

This is a most effective spray for limited areas of potatoes, and by using the double nozzle (see illustration) the underside of the foliage can be as easily sprayed as the top and two rows can be gone at once.

PRICE OF "ECLAIR" SPRAY PUMP, 50/- Packed.
Delivered Free on Rail Sydney.
Double Nozzles, 4/6. Extra Length of Brass Tubing, 2/3.
